REASONS FOR ALLOWANCE

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 1 recites, inter alia, *insulation cup comprising a first part and second part, the first part configured to mechanically couple to the second part such that the first part and the second part substantially encapsulate the current transformer, an interior portion of the insulation cup disposed between the core and void.*

Claim 8 recites, inter alia, *mechanically coupling to the second part to substantially encapsulate the current transformer such that an interior portion of the insulation enclosure is disposed between the core and void.*

Claim 13 recites, inter alia, *insulation cup substantially encapsulate the current transformer such that the insulation cup provides a barrier within the void between the current transformer and the first coil and between the current transformer and the second coil.*

The references of record do not teach or suggest the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
